BROKSTOCK METALS CONVERSION PROMOTION FOR BROKSTOCK CLIENTS

BROKSTOCK clients with an active account who hold open positions in ZAR quoted Gold, Silver, or Platinum instruments and who fulfil the requirements of this promotion may participate in the conversion of those positions into corresponding USDT quoted metal instruments and receive a Bonus equal to twice the commissions charged for the eligible closing and opening operations.

Eligibility

This promotion is available only to BROKSTOCK clients who, at the relevant operational time determined by BROKSTOCK, have an active, verified, and valid account with one or more open positions in ZAR quoted Gold, Silver, or Platinum instruments that are eligible for conversion under these terms.

To participate, the client must review the promotion landing page in the BROKSTOCK mobile application and confirm consent to participate during the consent collection period. Once the client confirms participation, the consent is final and cannot be cancelled or withdrawn through the promotion flow.

If a client does not confirm consent through the landing page during the consent collection period, BROKSTOCK will not process that client under this promotion unless BROKSTOCK expressly decides otherwise and communicates an alternative process.

Consent and Irrevocability

By confirming participation, the client authorises BROKSTOCK to close the client's eligible ZAR quoted Gold, Silver, and Platinum positions and to open corresponding USDT quoted metal positions on the client's account in accordance with these terms.

The client acknowledges that, after consent is confirmed, BROKSTOCK may proceed with the closing and opening operations without additional approval from the client. The client will not have a right to reverse the consent, reinstate the closed ZAR quoted positions, or require BROKSTOCK to undo the conversion once it has been processed.

Position Closing and Re-Opening Process

After the consent collection period ends, BROKSTOCK will close the eligible ZAR quoted metal positions of participating clients and open corresponding USDT quoted metal positions during the operational window beginning on 12 August 2026 and ending on 13 August 2026.

BROKSTOCK will record the financial result of the closing operation on the client's account. After the closing operation is completed, BROKSTOCK will open positions in the corresponding USDT quoted metal instruments using the funds available after the closing of the eligible positions, subject to applicable fees, platform rules, minimum trade sizes, margin requirements, liquidity, and technical limitations.

The closing of the eligible ZAR quoted positions and the opening of the corresponding USDT quoted positions will be carried out as part of the same conversion process during the operational window specified above. During any gap between the closing of the ZAR quoted positions and the opening of the USDT quoted positions, the client may not have market exposure to the relevant metal instruments.

The reopened USDT quoted positions may differ from the closed ZAR quoted positions in value, quantity, exposure, price, spread, margin treatment, currency quotation, or other trading parameters. BROKSTOCK does not guarantee that the new positions will replicate the economic result or market exposure of the closed positions.

Multiple Accounts and Multiple Positions

If a client has multiple accounts under a single verified profile and more than one such account contains eligible ZAR quoted metal positions, BROKSTOCK will process the eligible positions separately for each account and for each relevant metal instrument.

For each account, the Bonus will be calculated based on the total commissions charged for all eligible positions closed and corresponding positions opened on that account. The Bonus amounts for each account will be aggregated per account and credited to the relevant account on which the eligible operations were processed.

Bonus Receiving

Participating clients will be charged the applicable commissions for both the closing of eligible ZAR quoted metal positions and the opening of the corresponding USDT quoted metal positions. BROKSTOCK will calculate those commissions and credit a Bonus equal to twice the aggregate amount of such commissions.

The Bonus will be credited within 5 business days after the date on which the corresponding USDT quoted metal positions are opened. If the opening of positions occurs on different dates for different accounts or instruments, the 5 business day period may be calculated separately for the relevant account or instrument.

The Bonus is promotional in nature, is not interest, is not compensation for market movement, and is not intended to eliminate or reimburse any trading losses, price differences, currency effects, spreads, margin effects, or other financial results arising from the closing and opening operations.

USDT Quotation Clarification

USDT quoted Gold, Silver, and Platinum instruments offered on the BROKSTOCK platform are not crypto instruments, crypto assets, crypto tokens, stablecoins, or cryptocurrencies. USDT is used only as the quotation currency for the relevant metal instruments.

Participation in this promotion does not give the client ownership of USDT or any cryptocurrency and does not constitute a crypto transaction. The client receives exposure to the relevant USDT quoted metal instrument as made available by BROKSTOCK on its platform.

Risks and Client Acknowledgements

By participating, the client acknowledges that trading in financial instruments involves risk. Metal prices, exchange rates, spreads, liquidity, commissions, margin requirements, and execution conditions may change before, during, and after the conversion process.

BROKSTOCK does not provide investment advice through this promotion and does not recommend that any client maintain, close, or open any position. The decision to participate is made by the client through the promotion landing page.

BROKSTOCK may decline, delay, adjust, or cancel the processing of any position or Bonus where processing is not technically possible, would breach platform rules or applicable law, or would be inconsistent with these terms.

Promotion Period

The consent collection period for this promotion will run from 3 August 2026 to 11 August 2026. The eligible ZAR quoted positions of participating clients will be closed and the corresponding USDT quoted positions will be opened during the operational window beginning on 12 August 2026 and ending 13 August 2026.

BROKSTOCK will communicate any relevant information concerning the conversion process through the BROKSTOCK application, official website, or other appropriate channels.

Other Terms

This promotion is available only to clients who meet the eligibility criteria and confirm participation through the BROKSTOCK mobile application.

Entries, confirmations, accounts, positions, or transactions that are incomplete, inaccurate, duplicated, fraudulent, abusive, or otherwise inconsistent with these terms may be excluded or disqualified at the sole discretion of BROKSTOCK.

If a client uses fraudulent methods or otherwise attempts to circumvent the rules, the client may be removed from eligibility and any Bonus may be withheld, cancelled, adjusted, or reversed at the sole discretion of BROKSTOCK.

BROKSTOCK's internal records regarding client consent, account status, eligible positions, commissions, Bonus calculation, and Bonus payment will be final and binding for the purposes of this promotion.

By participating, the client agrees to be fully and unconditionally bound by these terms and confirms that the client meets the eligibility requirements.

For any questions regarding the promotion, clients should contact the BROKSTOCK support team.

Promotion Changes

BROKSTOCK reserves the right to modify, suspend, cancel, or terminate the promotion at any time, with or without prior notice, subject to applicable law. Any changes to the promotion terms and conditions will be posted on BROKSTOCK's official website https://brokstock.co.za/ and/or in the BROKSTOCK application.

Any modification, suspension, cancellation, or termination of the promotion will not reverse or otherwise affect any closing or opening operation that has already been completed.
